SB 332

Dear Senators,

I am writing to urge you to vote in favor of SB 332. It is time we encourage development of renewable energy sources as in solar and wind generation. Given our great quantities of these energy sources not to develop them would be a dereliction of our obligation to future generations options. The potential for new jobs is great. When I established a "solar farm" on my ranch in the Gallatin Valley, twelve to fourteen people were employed at good wages; albeit some of these were temporary to my project but could be ongoing if SB 332 is passed.

Respectfully,

T.H. Crawford
